

学术报告

题目: Selectivity in Catalysis: Borylation, Silylation, and Arylation of Asymmetric Internal Alkynes

主讲: Dr. Pablo Mauleón

时间: 2019年10月15日上午10: 00

地点: 化学馆239

- In 2006, Dr. Pablo Mauleón earned his PhD. Degree at the Autonomous University of Madrid, Spain, working with Prof. Juan C. Carretero.
- In 2006-2008, as an MICINN Postdoctoral Scholar with Prof. F. Dean Toste at the University of California, Berkeley (USA).
- In 2009 Pablo moved to the University of Basel (Switzerland), where he worked as a Marie Curie Postdoctoral Scholar with Prof. Andreas Pfaltz.
- In 2011, he returned to the Autonomous University of Madrid, Spain, as an Assistant Professor in the Department of Organic Chemistry.
- In 2017, he was promoted to Associate Professor.
- His research interests include the development of new methods for the stereo- and regioselective functionalization of olefins, alkynes, or allenes, as well as the development of conceptually novel pyridinium-based hydrogenation processes.
